## COLD SHOULDER FOR JAPANESE MINISTER

### Viscount Aoki Incurred President Roosevelt's Displeasure.

### ALSO THAT OF SECRETARY ROOT

**Several Reasons Given For the Recall of the Japanese Ambassador by His Country—Made Himself Unpopular at Washington.**

Chicago, June 21.—A dispatch to the Record-Herald from Washington, says:

Viscount Aoki, the Japanese ambassador, has incurred President Roosevelt's strong displeasure because of his lack of delicacy and discretion in conducting the negotiations relating to the San Francisco attacks on Japanese. Aoki's recall is due to three things:

Being out of favor with President Roosevelt. Marrying a German woman (which made him unpopular in his own country) and not getting full social recognition from the members of the diplomatic corps here.

Before President Roosevelt left for Oyster Bay the Japanese ambassador talked with him about the attacks on Japanese in California, and about the destruction of their property. Aoki diplomatically hinted that the United States should pay indem-

VISCOUNT AOKI.

nity to Japan for the San Francisco mob outrages. President Roosevelt remained silent, and mistaking this silence for acquiescence in the suggestion, the ambassador made a definite proposition that the United States pay an indemnity.

There was no mistaking the president's attitude then. He forcibly expressed disapproval of the proposition and dismissed the ambassador with advice to conduct his negotiations in future with the state department.

Secretary Root was informed of the incident, and immediately changed his demeanor toward the Japanese ambassador. Since that time the intercourse between the two men has been cold and formal, only official matters being discussed when they meet. Previously Secretary Root had been somewhat impatient with Viscount Aoki because of his persistence in pressing trivial matters.

When the ambassador made his indemnity proposition to Secretary Root he was told that Japanese have no more rights than American citizens have. The only redress Americans have in such cases is to resort to the courts and sue for damages. But at the same time the federal government urged the governor of California to give ample police protection to the Japanese. This is now being done.

**Persian Revolt Crushed.**

Teheran, Persia, June 21.—The Persian revolt has been crushed. Abdul Fath Mirza, brother of the shah, who raised the standard of revolt immediately on his father's death, has taken refuge at the British consulate at Kermanshah, and has asked securities for himself and family.

## PROGRESS OF HAYWOOD TRIAL.

**Orchard's Statements Corroborated by Substantial Witnesses.**

Boise, Idaho, June 21.—With the opening of court Thursday, the state of Idaho continued the introduction of evidence supporting the story told by Harry Orchard in the course of the occupancy of the witness chair for seven days.

There remain some few points to be corroborated, but up to the present the chain has been woven with skill, and nearly every major and minor statement made by Orchard has been corroborated by substantial witnesses.

The planting of the bomb at the gate of Justice Goddard, of the supreme court of Colorado, which Orchard said was done at the behest of the "Inner Circle" of the Western Federation, has been corroborated by the justice himself.

The telegrams delivered to Orchard in San Francisco, and which he stated brought him money from Pettibone and through Pettibone from Haywood, have yet to be introduced as evidence. They have a most important bearing as corroborative matter.

Steve Adams will not be put on the stand by the state under the present arrangement unless the plans are changed. It is believed that the introduction of his direct testimony will not help the state's case, because it is anticipated he will persist in his refusal to testify against Haywood. Counsel for the prosecution anticipate that Adams will be called by the defense as one of their witnesses, but they do not attach importance to what he may testify to in the impeachment of Orchard's story.

A large number of important witnesses for the defense arrived Wednesday night and are quartered at the hotels in Boise.

## STATE CAPITOL SCANDAL.

**Pennsylvania Paid $66,000 for Safes Worth Only $27,000.**

Harrisburg, Pa., June 21.—C. D. Montague, a metallic furniture expert of New York, testified before the capitol investigating committee Wednesday that the state had not only been grossly overcharged for the metallic furniture supplied by the Pennsylvania Construction company, under its $2,000,000 contract with the board of ground and buildings, but that he had bored into the burglar-proof vault in the state's treasury in four hours with an ordinary 8-inch breast drill. Mr. Montague said also that the four safes in the capitol, for which $66,000 was paid by the state, were worth only $27,000, and that there was no chrome steel or steel nails in the vault, only ordinary steel which any one could bore into with ease.

As to the metallic furniture, the expert said the state was charged excessive prices. He cited certain bills which were two and three times more than a fair trade list price, without the customary discount. He said the sub-basement contained one case that cost the state $1,182. The list price was $297.01, subject to discount. As to the first floor metallic furniture, it cost $229,231.10, and was worth $132,103.53. On the entresol floor, articles were billed at $15,688.40 and were worth $6,470.65. These were based on standard trade price lists.

**She Used Knife on Boys.**

New York, June 21.—Enraged because some roguish schoolboys had tumbled her over while playing a street piano, in the lower West Side, Philomena Castino, a young Sicilian girl, drew a stiletto from the folds of her dress and fatally stabbed Chas. McCarthy, a young man, in the breast. McCarthy will die. The girl was arrested with her companion, Thereso Christopher, who is held as a witness. The wounded man and the two girls were taken to the station house, where Philomena again tried to stab McCarthy as he lay on the station house floor. McCarthy was taken to the hospital, where, it is said, he will die.

**Five Killed in Tornado.**

Valpariso, June 21.—A tornado from the Andes has devastated the copper mine works at El Tentiente. Five men were killed and a number injured.

## GREAT ENGINEERING SCHEME IS LAUNCHED

### Catskill Aqueduct Will Cost New York $162,000,000.

### 800,000,000 GALLONS IS CAPACITY

**Aqueduct Will Be 150 Miles Long, Will Wind Among Hills, Across Gorges and Pass Underneath Bed of Hudson River.**

New York, June 21.—With a small silver trowel, Thursday, Mayor McClellan turned a sod of earth among the hills 2 miles back of Peekskill on the Hudson river, and by this act he began the great engineering undertaking which will cost $162,000,000 and will eventually furnish Greater New York with 800,000,000 gallons of water daily, besides the amount available from the Croton and other present sources of supply.

From the small and simple beginning by the mayor will, in time, be constructed the Catskill aqueduct, 150 miles lon, which will connect the Ash Okan reservoir in the Esopus valley with every borough of this city, including even Staten Island.

It will have a channel height of 17 feet. It will wind among hills and across gorges into the heart of the region imortalized by Washington Irving and will pass under several of the small creeks.

At Storm King mountain, above West Point, it will descend more than a thousand feet to cross 650 feet underneath the bed of the Huudson river.

**Call for Peace Conference.**

San Francisco, June 21—A call for a national industrial peace conference to meet in this city in July has been issued by the conciliation committee of San Francisco, which, it is said, has the encouragement of President Roosevelt. The committee expects that this national conference will effect a condition of permanent industrial peace in this city, show to the east that the labor conditions here are not entirely hopeless. The dates for the meeting are July 18, 19 and 20. At this gathering it is proposed to organize a branch of the National Civic Federation.

## HAGUE PEACE CONFERENCE.

**Petitions Pouring in from All Parts of the World.**

The Hague, June 20.—11:56 a. m.—The various delegations to the peace conference met Thursday and selected members to be assigned to the four general committees created Wednesday. Under the rule each delegation has full liberty of choice in this respect. As in many instances, especially in the case of the smaller delegations, the same numbers will be assigned to two or more committees. It will be necessary for the committees to assemble on different days. The real work of the conference will be done in the committees.

A month is expected to elapse before the next plenary sitting, the plan is to have the committee work well advance before again calling a full conference together. This was the procedure in 1899, when there was a period of twenty-eight days between the appointment of the committees and the presentation of the first report.

M. Nelidoff has received a petition from the committees of Armenia and Albanian organizations ppraying that the conference consider some measure for alleviating the deplorable position of these people. Similar petitions are filed with the secretary and are acknowledged with a notification that the conference could not occupy itself with matters not presented by delegates.

**$20,000 Fire at Cartersville.**

Cartersville, Ga., June 21.—Wednesday night a fire broke out in this town at the lumber plant of the Cartersville Lumber company. The buildings and the lumber belonging to the company were destroyed. The total value of the property lost is estimated to be $20,000.

## MAY QUIT THEIR KEYS.

**Strike Against Western Union and the Postal Probable.**

New York, June 21.—Unless its demands upon the Western Union and Postal Telegraph companies receive consideration, a strike will be ordered within a week or ten days, so it was announced Wednesday by the Commercial Telegraphers' union.

No specific date for the expiration of their ultimatum was set by the telegraphers, and the question involving one or both companies was left open.

The announcement of the intended strike was made in the form of a statement given out by Deputy President Konekamp, as follows:

"The general executive board of the Commercial Telegraphers' union has approved a strike against either or both the Postal and the Western union telegraph companies, and the matter is now in the hands of President Small. When or where the strike will be first declared will not be given out at this time, but it will take place within the next week or ten days. The plans for the campaign have been laid, and the men are ready for a struggle."

The language of the announcement is construed as indicating that no general strike is at present contemplated, but that the men will be called out at some of the larger offices, to be followed by a series of local walkouts elsewhere.

New York, June 20.—The threatened strike of the telegraphers is off. An adjustment has been reached.

## BRYCE'S INTEREST AROUSED.

**English Ambassador Charmed With the Southwest.**

New York, June 21.—The Hon. James Bryce, British ambassador to the United States is, accordoing to President Davidson, of the St. Louis and San Francisco railroad, who has been traveling through Kansas, Oklahoma and Indian Territory with Mr. Bryce, learning more about the Southwest than is involved in the study of Indians.

The agricultural development of that part of the country and the inrush of population have aroused his keenest interest. Mr. Bryce is quoted as saying:

"The southwest possesses the agricultural wealth of France, the rural beauties of England and the tinted azure skies of Italy."

**Accident in Tunnel.**

Louisville, Ky., June 21.—A passenger train on the Baltimore and Ohio Southwestern was cut in two by a falling rock in a tunnel near Mitchell, Ind., Thursday morning. Several persons were reported injured, but there was no loss of life. The wrecked train is passenger train No. 12 consisting of mail car, combination car, two day coaches and a Pullman. All the cars were wrecked except the Pullman. Reports differ as to the number of injured.

**Justice of Peace for 57 Years.**

Tifton, Ga., June 21.—Judge Isaac Howard, of the Isabella district, in Worth county, was in Tifton for a few hours Wednesday. Judge Howard is probably the oldest living justice of the peace in the state, having held his office continuously for fifty-seven years, being elected magistrate of his district soon after Worth county was created, and having never had a successor, and for many years no opposition. The judge is 83 years old and is hale and hearty.

**Bids for "Dreadnaughts."**

Washington, June 21.—Bids were opened at the navy department on Thursday for the construction of two American Dreadnaughts, or what are officially known as battleships Nos. 28 and 29, each to be of approximately, 20,000 tons displacement, the cost of each not to exceed $6,000,000, exclusive of armor and armament. The total cost of each when completed is estimated to be $10,000,000.

**Two Killed; Many Injured.**

Lisbon, June 21.—During a demonstration here Wednesday, caused by the return of the Portuguese premier, two persons were killed, several injured and a score placed under arrest.

## HUNDREDS OF LIVES LOST IN GREAT FLOOD

### Town In Thessaly Was Partly Overwhelmed.

### PROPERTY LOSS OF THOUSANDS

**Hundreds of Houses Were Carried Away by the Raging Flood and Women and Children Swept to Death in a Twinkling of an Eye.**

Athens, Greece, June 21.—At least two hundred persons have already perished in a terrible flood at Tribhala, Thessaly, where a large part of the town was overwhelmed by the river Lithaide.

Swollen by storms, the river suddenly overleaped its banks. Hundreds of houses were carried along into the raging flood before their occupants were able to escape, and men, women and children were swept to death in a twinkling.

The property loss will amount into the thousands, and there is great danger of famine among the survivors, many of whom are left absolutely without home or provisions. It is said that the government will take immediate steps for the relief of the sufferers. Reports indicate that investigation may show a greater loss of life than given in the first dispatches.

## BLOODHOUNDS ON TRAIL.

**Men and Dogs Searching Swamps for Kidnaped Lamana Boy.**

New Orleans, La., June 21—Three of the best bloodhounds in the state, followed by 25 armed men, are threading their way through the swamps near St. Rose, La., on a trail which it is hoped will lead to the capture of Walter Lamana's kidnapers.

The dogs were taken to St. Rose Wednesday from the state capital and a handkerchief from the pocket of an Italian whom the police suspect of complicity in the kidnaping was held to their noses. The dogs then scented for a few minutes about the Italian's house after which they dashed yelping straight for the swamps of St. Charles parish, said to be one of the most perfect hiding places in the state.

Darkness stopped the search when 5 miles had been covered, but at daylight it was resumed.

**Atlanta Man Suicides.**

Atlanta, June 21.—John W. Steele, of 22 Gospero street, shot himself twice through the head Thursday and died within a few minutes.

Steele was a street car conductor, and was 22 years of age.

He was married two weeks ago to Mrs. Hattie Lindsey. His wife was cooking breakfast when she heard two shots, and running into the room where her husband was, she found him lying unconscious. He never spoke afterwards, and died within a few minutes. No explanation was given for the suicide.

Steele used a 38-caliber revolver.

**Great Day at Ascot Races.**

Ascot, England, June 21.—Thursday was the greatest day, socially of Ascot meeting. King Edward, Queen Alexandria, the Prince and Princess of Wales, and Prince and Princess Andrew, of Greece, went in state procession to the field. The weather was perfect, and most of London's society folk and many Americans were present. The display of the handsome, gay colors surpassed former years. The principal event was the race for the gold cup for colts and fillies.

**Lightning's Queer Freak.**

Huntsville, Ala., June 21.—News comes from Meridianville of some queer stunts performed by a bolt of lightning in the home of Fleming White. The bolt struck the house, passed through the roof into the bedroom, jumped from the wall to the head of the bed and from there into the bed, passing between Mr. White and his wife. The lightning set fire to the bed clothing and to the clothing of their baby, who was asleep between them, and injured no one.

# FIRE AT CHASE'S CAUSES BIG LOSS

### Second Fire Within Two Months at Turpentine Retort Plant.

### PLANT WAS JUST RE-INSTALLED

**Had Been Running Only a Few Days. Origin of Fire Said to be An Overcharge—Loss Will Aggregate About Twenty-five Hundred Dollars.**

It seems that fate is against the successful operation of the Chase turpentine retorts, which are located about two miles to the north of the square, since within the past two months there has occurred two serious fires, destroying retorts upon both occasions.

No sooner had the retorts burned about two months ago been replaced than a second fire of the same nature occurred, again destroying the same property as was destroyed before.

About 7:30 o'clock Friday morning a dense, black smoke was seen curling into the air north of the city. The volume, which was funnel-shaped, resembled the clouds of an approaching cyclone, and those who noticed them felt sure that a fierce fire was raging, and they were correct, as an hour later word came that a second fire had destroyed a large retort of the Chase plant.

The plant being beyond the fire limits, it was impossible for the department to render any aid. Even in the event that aid could have been rendered, the nature of the material, being spirits of turpentine, could not have been extinguished.

The loss of these retorts, which have just been installed, was said to have been caused by an "over-charge."

The damage will aggregate about $2,500.

### Miss Dean Entertains.

At her home in East Gainesville Thursday evening Miss Carrie Dean delightfully entertained a number of her friends in honor of Miss Bessie Galloway, who is visiting here.

The evening was spent in a most enjoyable manner, one of the features being an "observation contest," in which each young man had to give a written description of his young lady partner, and each young lady a description of the young man. This naturally aroused great interest and enthusiasm.

Other things also lent pleasure to the occasion, such as vocal and instrumental solos, recitations, the customary amount of conversation, and what we all enjoy—the refreshments.

At a late hour the guests departed, being much delighted and greatly indebted to Misses Dean and Galloway for the pleasure of the evening.

## Make a Summer Resort of your Porch

The market is full of shades—good, bad and indifferent—but the

**"VUDOR" Shade**

stands in a class alone as the Standard Porch Cooler, with a reputation as unassailable as Ivory Soap or Huyler's Chocolates.

A hundred thousand American homes, including the White House at Washington, are equipped with them, and here in Gainesville the scores of VUDOR Shades on nearly every street—some hung two years ago—are the best testimonials we could ask.

# HIGH-TONED WALDO PUTTING ON AIRS

### Fine Lighting Plant Recently Installed in That Town.

### NEW BANK IS RUMORED

**Steps Are Being Made to Incorporate the Town, and Altogether Waldo is Destined to Become the Metropolis of the East End.**

The town of Waldo, which has always been one of the most progressive in the East End, is putting on airs over the new acetylene lighting plant, recently completed in that town, and which is one of the most up-to-date in the State. The citizens are well pleased with the plant, which illuminates the town with a brilliancy very attractive.

It is rumored that Waldo will also have a bank at an early date, which will prove another great convenience to the citizens and business men.

Steps are being taken to have the town reincorporated, and altogether "things are looking up" in that progressive burg.

## NEWS OF CITY AND COUNTY CONDENSED

Dr. J. Harrison Hodges has returned from a professional visit to White Springs.

Willie Way of Fernandina, son of Rev. and Mrs. Way, is in the city on a visit to his friend, Hardy Jarvis.

Mrs. J. M. Shelton and daughter, Miss Idel, are in the city from Lake City, guests of the former's mother, Mrs. A. H. Leonard.

Miss Louise Simpson, a trained nurse from Atlanta, has arrived in the city for a two-weeks' visit to her mother, Mrs. J. R. Emerson.

Hon. S. W. Williams of New Orleans, special agent of the General United States land office, who is also acting as inspector of land offices, left the city Thursday for Montgomery, Ala., after an offcial visit to the land office here.

Attention is called to the advertisement of Phifer Bros., bankers, which appears in this issue. This bank, while recently started, by its conservative methods, has enjoyed a fine business, which is increasing daily. The officers are as accommodating as is conservative, and enjoy the confidence of the public.

Hon. John G. Dampier of Hague, chairman of the board of county commissioners and one of the most enthusiastic hard roads advocates in the county, was in the city yesterday. Mr. Dampier reports that his daughter, Miss Johnnie, who was so severely burned a few weeks ago, is now enabled to sit up, which will be gratifying information to the friends of the young lady.

### New Jacksonville Firm.

A new firm is to be established in Jacksonville about July 1, which will add another industry to that growing city.

This firm will be composed of J. M. Turner, Jr., formerly of this city, and C. H. White, and the business will be the manufacture of candy and crackers.

Both these young men are hustlers, and it goes without saying that the venture will prove a success from the beginning.

### Grove Park to Celebrate.

The good people of Grove Park, determined not to be outdone in patriotism by other towns of the county, have decided to hold a basket picnic on the Fourth of July. The day will be passed in an enjoyable manner, one of the principle features being a large pavilion, which will afford ample room for dancing.

A cordial invitation is extended to all to come and bring well-filled baskets.

### A Happy Mother

Will see that her baby is properly cared for—to do this a good purgative is necessary. Many babies suffer from worms and their mothers don't know it—if your baby is feverish and doesn't sleep at night, it is troubled with worms. White's Cream Vermifuge will clean out these worms in a mild, pleasant way. Once tried always used. Give it a trial. Price 25 cents. Sold by W. M. Johnson.

## One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

### TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

### NIP IT IN THE BUD.

**First Appearance of Dandruff a Forerunner of Future Baldness.**

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundancy.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

# THE LOWMANS ARE HELD WITHOUT BAIL

## Murderers of Dunlap Phinney Shown No Mercy by Court.

### LARGE CROWD WAS PRESENT

**Notwithstanding Strenuous and Earnest Efforts Were Made to Secure Release on Bail, Judge Friedman Refused to Release Them.**

Bascom Lowman and son, George Lowman, charged with the murder of Dunlap Phinney at Raleigh a few weeks ago, were arraigned before County Judge Benjamin Friedman at Bronson Friday, and were remanded to jail without bail, notwithstanding that a hard and stubborn fight was made to give them temporary freedom under bond.

The incident of this killing is remembered by every reader of The Sun. On Saturday night, June 8, these Lowmans saw Phinney coming from a store in Raleigh, when they shot him down. They were arrested —the father on Monday and the son on Wednesday following, and were taken to Bronson, where the preliminary was held yesterday.

The prosecution was made by State Attorney J. M. Rivers, while Judge Syd L. Carter and Pinnelle & Son represented the defendants.

A large crowd was present at the hearing, as the prisoners and the murdered man were very prominent.

## THE OAKS WILL BE MODERN.

**Extensive Alterations and Repairs Being Made to This Hostelry.**

When the Oaks Hotel, which is desirably located on East Main street N., surrounded by magnificent oaks, from whence it derives its name, is thrown open to the public about the middle of July, the hotel would hardly be recognized by those to whom the place has been familiar for years.

The building, which is owned by Major W. R. Thomas, has been leased for a term of years by James Van Allen, a hotel man of experience. The building is being thoroughly overhauled, altered and repaired, both exterior and interior, and when completed will be up-to-date in every respect.

One of the attractive features of this hotel is the inside finishing. The woodwork throughout will be white, while each room will be papered differently. The wide verandas, both up and down, will make the resort all the more attractive, especially to tourists, to whom the management proposes to cater during the season. This does not mean, however, that the general commercial and transient trade will be neglected.

The building has been equipped with a thoroughly modern plumbing system, bath and lavatories being conveniently arranged throughout the house.

The office will be large and handsome, and the same may be said of the dining-room. In all, the Oaks will be a modern hotel in every respect.

It is the intention of Mr. Van Allen to beautify the grounds with a flower garden and lawn which will in itself make a pretty little park in front of the hotel.

### Mr. Dow Is Out.

Friends of W. E. Dow, who has been suffering for the past few weeks with paralysis, were surprised but delighted to see him out Thursday and Friday, having come down in a buggy. He was showered with congratulations.

Mr. Dow's recovery has been slow but steady, and his friends hope to see him entirely well in a few weeks.

### Jones Says He Killed Adams.

Eatonton, Ga., June 21.—It has developed that Porter Jones, after shooting Robert F. Adams, went directly to the Rockville postoffice, two miles from the scene of the tragedy, andwhen informed as to the report of Adams' death, which, by that time, had been 'phoned in every direction, answered: "Yes, thank God; and I killed him." The commitment trial has been set for Friday and the investigation is being awaited with a great deal of interest.

### Many Passengers Hurt in Wreck.

Spokane, June 21—A wreck occurred on the Spokane and International railroad, near Spokane bridge, in which many passengers were injured, several probably fatally.

## THE JAPANESE.

**He Is Child, Fanatic and Emotional Savage All In One.**

He is a bundle of contradictions, and, measured by American standards, he is a bedlamite, straight from topsy turvy land. He may be a Chesterfield and a cheerful liar one minute and a red indian the next—a sycophant and a welsher today and a Napoleon tomorrow.

We westerners have been taught to regard the little Jap as an amusing and precocious child given to obstructing sidewalk traffic with his polite contests in kowtowing, to suspending from the branches of the cherry tree his dainty poems addressed to his friends and to dawdling for hours over the ceremonial tea, and when we see him under the tent flap, bowing and laughing and playing checkers, he seems a velvet pawed kitten in khaki. And yet you and I have seen him in battle a ramping, raging tiger, greedy of Slav bayonets and afterward dragging himself to the field hospital, shot to rags, unwhimpering, a mere bull hide wrapped around a will.

We never know a character until we have seen it put to the test under stress—least of all the combination of sphinx and Janus known as the Japanese. So studied, the embattled brown boy strikes me as a strange compound of Little Lord Fauntleroy, Peter the Hermit and Sitting Bull—child, fanatic and emotionless savage, all in one.—Appleton's Magazine.

### SULPHUR BRINGS HEALTH.

**Purifies the Blood and Clears Up the Complexion.**

Everybody needs to take sulphur at this season. Nothing like it to purify the blood, clear up the complexion and remove "that tired feeling." But the only way to take it is in liquid form. Hancock's Liquid Sulphur taken internally is the best Spring tonic. Applied externally Hancock's Liquid Sulphur quickly cures Eczema, Tetter, and all Skin Diseases. Hancock's, the only Liquid Sulphur Ointment, removes Pimples, Blackheads and Sores, and gives a beautiful soft, velvety skin. Your druggist sells it. It cured Edward D. Herring of Frederick, Md., of a bad case of Eczema, and he writes: "My face is as smooth as an infant's."

All-about-Sulphur Booklet free, if you write Hancock Liquid Sulphur Co., Baltimore.

### The Apparition.

Little Rastus—Has yo' evah seen a ghost, uncle? Uncle Eben—Yaas, chil'; Ah suttenly has. Little Rastus—What did he look like, uncle? Uncle Eben—Waal, it was a coal black night, an' it was de ghost ob a coal black niggah, an' so Ah couldn't see nuffin' 'cept two white chickens he had undah bees arm!—Judge.

## THE SNOW BUNTING.

**A Feathered Songster of the Arctic's Treeless Wastes.**

One of the most interesting of arctic birds is the snow bunting or polar singing bird. A native of Spitzbergen and Nova Zembla, its short, agreeable notes sound doubly sweet when heard in these treeless wastes. The birds build their nests in the mountain clefts or under large rocks, lining them with feathers and down. In winter time their plumage is warm and abundant and especially fits them for the rigor of an arctic winter. During the breeding season and summer they live entirely on insects, particularly gnats, while in winter they subsist on moss, roots and seeds. Some winters less rigorous than others they are in abundance, but at times famine compels them to seek a more favorable climate, and they are then seldom found until they invariably reappear toward spring. These buntings are distinguished by a long claw on their hind toe, a structure which really enables them to run about with ease on the soft snow.

Of the other birds I may mention puffins, divers, loons, dovekies, gulls, skuas, burgomasters, kittiwakes, terns, swans, geese, hawks, eagles and every variety of ducks known to inhabit the northern shores of America and Europe, including the scooter, long tail, scaup duck, merganser goosander and raven. These delight in reveling and resting among the moss covered banks and shores and among grasses and shrubs that exist about the polar willow with its horizontal roots and shrubs, for in this country the forests are more in than above the earth.—Field and Stream.

## SHE HAD A REPUTATION.

**But the Customer Was Not Going to Eat the Lady.**

A lady who intended to give a dinner to some friends at which the piece de resistance was to be duck shot by her husband on the shores of eastern Maryland, decided that none but the very best jelly should be served as an accompaniment to the dainty fare.

So she proceeded to a gorgeous Broadway establishment, a place where one pays a quarter apiece for tomatoes and a dollar a stalk for asparagus at certain seasons of the year. The jelly the clerk offered her did not appear to be just what she wanted, so she suggested another variety.

"But, madam," said the clerk haughtily, "this is the very best jelly you can buy. It is made by Mrs. McGuggin of Brooklyn." And he pointed to the label on the jar.

"I've never heard of it," meekly suggested the lady. "Are you sure it's all right? Do you guarantee it?"

Seeing that his customer was extremely mild of character and perhaps to be easily rattled, the clerk smiled in a patronizing way. "Guarantee!" repeated he, more haughtily than ever. "Madam, we don't have to guarantee Mrs. McGuggin's jelly. Her name is enough. This lady, madam, has a reputation!"

"Oh, I have do doubt of that. I'm sure," broke in the mild mannered lady, with a heightened color. "I'm not questioning the lady's reputation. It was the jelly, I assure you!"—New York Tribune.

## KENTUCKY REPUBLICANS.

**They Select Augustus E. Willson As Candidate for Governor.**

LaGrange, Ga., June 21.—The Republicans of Kentucky, in state convention on Wednesday, selected Hon. Augustus E. Willson, of Louisville, for governor, and adopted their platform without a dissenting vote.

The contest between the adherents of Vice President Fairbanks and Secretary of War Taft, in committee, was warm, but there was but one report naming no candidate, and merely expressing a preference for a candidate who would faithfully carry out President Roosevelt's policy.

The night session opened with the unanimous report of the committee on credentials disposing of contests in three wards in the city of Louisville.

All the delegates seated were Willson men, and the report was adopted by acclamation.

### To Extend Railroad.

West Point, Ga., June 21—Following closely on the announcement of the building of the immense new mill of the West Point Manufacturing company, it now develops that there is great activity all along the line of the Chattahoochee Valley railway. The road was originally built when the consumption of cotton by the mills here, all of which are on its line, was considerably less than now, and with the building of the new mill, the four mills under Mr. L. Lanier's management will require something more than 75,000 bales of cotton. So it has been found necessary to extend the road to new territory, where a larger supply of cotton can be secured.

### Rather Remarkable Wedding.

Washington, June 21.—The wedding of Miss Maud Vera Hanna, the daughter of the late Joseph H. Hanna, of Cincinnati, and Captain Horace Fairfax Moresby Browne, of the British army, took place Wednesday in spite of the fact that both of the principals wore bandages as the result of an auutomobile accident, in Rock Creek park, on Monday last. Mrs. Beulah Jacobs, of London, the young woman's chaperone, who was to have given the bride away, had not sufficiently recovered from her injuries to attend.

## Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## INSANE MAN THREW BOMB.

**Great Excitement Prevailed in Grecian Chamber of Deputies.**

Athens, Greece, June 21.—An unknown man threw a dynamite cartridge from the gallery of the chamber of deputies during an all-night session which began Wednesday.

The cartridge fell among the benches which were crowded with deputies, but the disaster was averted by the fuse becoming detached in the flight of the missile, the finance minister, who was speaking when the outrage occurred, rushed to the doors, with all the deputies.

The man who threw the cartridge was arrested and proved insane.

### Gun Discharges and Kills Girl.

Griffin, Ga., June 21.—A lamentable tragedy occurred in the River Bend district of Berrien county, a few miles west of Sparta, Ga. Mr. and Mrs. John Crumpton had gone fishing and left their children, a little boy named Archie, about 8 years old, and a little girl, Amanda, 10 years of age, in the care of some larger children. The larger children were busy at work, and, by some means, the little boy and girl got hold of a single-barreled shotgun, with which they were playing, when, by accident, it was discharged, the entire load entering the fleshly portion of the little girl's thigh, cutting the main artery and from which she bled to death in a few minutes.

### Labor Meeting at Savannah.

Savannah, Ga., June 21.—The Georgia Federation of Labor convened in Savannah Wednesday for a three days' session. About 200 delegates from unions throughout the state were in attendance at the opening and it is expected that a few more will arrive before the convention is concluded. During the course of the convention several matters of general interest in the labor and industrial world are to be considered. The federation, it is asserted, will indorse unqualifiedly the child labor bill that is now in operation in Georgia.

### First A., B. & A. Roanoke Train.

LaGrange, Ga., June 21.—The Atlanta, Birmingham and Atlantic railroad has been completed to Roanoke, Ala., which is 24 miles northwest of LaGrange. On Sunday the first passenger train to run over the new road from LaGrange to Roanoke was run by the construction company. Accepting their courtesy to make the first trip were a number of local officials of the A. and W. P. and the M. and B. roads, together with about a hundred people from LaGrange.

### Fatal Fight of Young Boys.

Monroe, Ga., June 21—Two young boy operatives of the Walton Cotton mills had a difficulty Wednesday over a trivial matter, and as a result one of the two, John Wood, aged 15, is dead, and the other, Ollie Smallwood, aged 13, is in the Walton county jail. The fatal deed was accomplished by means of a pocket knife, and the wound was inflicted just about the heart, severing the heart's strings. Wood lived only three minutes after being struck the blow.

### Leaves for the Philippines.

Covington, Ga., June 21.—Miss Frances Cooley, sister of Editor Jas. P. Cooley, of the Enterprise, has left for the Philippines, where she goes to accept a position as teacher of English in the city public schools of Manila. She is scheduled to arrive in Manila on August 15, stopping enroute for a few days each at Honolulu, Hong Kong and Tokio.

### Posse Shot Negro to Death.

Reidsville, Ga., June 21.—Babe Flowers, a negro, has been shot by a posse. The posse had been sent to arrest him by the sheriff of the county. A forty-four caliber Smith & Wesson revolver was found on his person after he was shot. Flowers died in the county jail from the effects of his wounds.

### Young Woman Takes Her Life.

Jasper, Ga., June 21.—Miss Queen Thompson, whose home was at Talking Rock, in this county, committed suicide Wednesday at her father's home by hanging herself. She was about 25 years of age, and well beloved by all who knew her. No cause is known why she would take her life.

### Importuned to Prevent Strike.

Denver, Colo., June 20.—Secretary Arthur Williams, of the Denver chamber of commerce, acting in the name of the organization, has sent telegrams to President Roosevelt at Oyster Bay, and President Clowry, of the Western Union Telegraph company at New York, urging them to use every effort to prevent a strike growing out of the demands of the telegraphers.

### Manchester Denies Report.

London, June 21.—The duke of Manchester in a statement made here, denied that he was to take up a permanent residence in America, and there engage in railroad work. "I hat eto spoil a good story," he said, "but there is no prospect of my engaging in railway work. I shall remain in England."

It looks as though the backward season had affected the development of a number of Republican Presidential booms.

An Indianapolis gentleman named Rhake has turned reformer. It is hoped that he does not intend becoming a muck Rhake.

"There is nothing in the world worse than smoking," says a prominent physician. Nor in the next one, either, for that matter.

A Pittsburg girl is slowly turning a beautiful lavender color. At the present time, however, she is a little blue concerning the matter.

If, as Mr. Tillman thinks, Mr. Harriman is bound for the infernal regions under if he can carry enough water with him to put out the fire?

John D. Rockefeller's barber is worth $100,000. If he had succeeded in making John D. Rockefeller's hair grow he would probably have been worth a million.

Mr. Bryan says: "I am not only opposed to a third term, but to a second." Surely he is not training down gradually to a small-favors-thankfully-received attitude.

In view of what that Trust-Busting conference at the White House did not do, Mr. Harriman must feel like a habitual offender whose case has been nolle prossed.

It was bad enough for Mrs. Howard Gould to give her husband all the trouble he says she did without breaking up a lot of happy homes in the New York police force.

"If dollar wheat makes $6 flour," asks The St. Albans Messenger, "where does the great public benefit come in?" Why, the public has less trouble getting rid of its money, of course. Ask us another.

An incoming ship recently unloaded 2 tons of Limburger cheese in San Francisco. If there is any city in the United States where the presence of such a cargo will not be especially noticeable, that is the one.

A Missouri burglar robbed the safe of the local ice company and got 30 cents for his pains. A man who would try to rob an ice company under present conditions deserves nothing better than a water haul.

There are some things about this weather that are entirely in its favor. For example, if the heated term of the Brownsville inquiry had been chronized, it would have been a good deal worse than it has been.

The very foundation of the protective system has always been claimed by the standpatters to be the need of protecting American workmen against the "pauper labor" of Europe. Yet, in his speech at Lansing President Roosevelt declared: "We have very little fear of the competition of papuer labor." Does he also think that "infant industries" don't need protecting? These Republicans should get together and tell us just what they do stand for.

## THE OCEAN HIGHWAY.

Plans have been definitely completed which will permit the tourists to use the extension of the East Coast railway to Key West next winter, and the announcement should create great interest throughout the worlds of fashion and travel which touch each other at so many points. Perhaps all Florida that can be comfortably reached has been seen, but those who come early and so desire can write of the new scenery opened along the canal now extending in an unbroken highway from St. Augustine to Miami, supplemented by that engineering triumph which bridges the ocean from Miami to Key West with the exception of one short break where a safe and comfortable ferry will be provided until it has been closed.

Practically a new Florida is now offered, and in addition a view of a triumph of modern engineering ability that has no rival in all the world. The scenery is new—to the eyes the observation car seems to rest on the ocean itself, and to the sufferers from sea sickness a voyage is offered without the suspicion of wave motion. The wealth of tropic seas will lie under the car windows—stops may be made on the keys, where the gentle waves murmur at the feet of the visitors, and the sea-gardens are as plainly visible as those of the land—their flowers and miniature forests can be studied and admired in comfort, and with certainty of a return by rail at a stated hour. What a world for the picnic, what a museum for the naturalist, what a joy for the mere sight-seer!

Millions have been spent to provide the highway, which will continue, practically across the great river of the Gulf Stream to Cuba, for when the train runs into Kew West they will be transferred to monster ferry boats, and carried unbroken to the island. The British channel has not been bridged, though projects for tunneling and steamers of strange construction to obviate the motion have been rejected after trial; what Europe has not done, America has provided. And the trip from Miami to Key West by rail will be an experience alone worth a visit—from fairy isle to isle winds the road and over the waves themselves on great arches of concrete with the tides foaming beneath—such a conquest of the ocean as a despot king dreamed he could accomplish only to realize the helplessness of millions of fighting men.

Once a day on the Ocklawaha was held to furnish the acme of Florida sight-seeing as a steamer glided through the primeval forest, and the branches of giant trees swept the deck. Then the sun-kissed Indian river became the fashionable road. Next the trains of the East Coast plunged through the wilderness transforming it into homes and gardens, and the new tourists were told they had missed the first night at the greatest show on earth. But—enterprise ever finds fresh worlds to conquer, and industry makes new demands on capital and thought. This winter Florida offers two unsurpassed attractions—one for the new motor boat, and the fishermen, and the other a rail laid on the mane of old ocean.

Yet another year and the Florida railway will be practically extended to Cuba, while the Florida canal will be opened into the St. Johns, and so to be joined in time to the waters of the Chesapeake. "The sun do move," said the negro preacher, and Florida never stands still. "I have found nothing more wonderful or more magnificent than I have seen in my own country," said a prominent American upon returning from a trip around the world. Next winter two new attractions will be offered by Florida to the list of America's wonders and delights. See them and revive your patriotism.—Times-Union.

Wisconsin has now fallen into line in the regulation of corporations, by the action of the assembly in passing a so-called public utility bill, which is a most sweeping measure. It gives the State railroad commission authority to control and regulate all public service corporations in the State, except telephone and telegraph companies. The various corporations affected have not opposed the measure as a whole, though they have asked for modifications in several of its provisions. All this goes to show that the people of the country are alive to the situation, and the day of the predatory corporation and illegal combination is rapidly drawing to a close.

### Reporters and Orators.

There have been errors in reporting, of course. There always will be such errors. But inaccuracies of this kind are usually insignificant, and they are more than balanced by the dressing up and revision which good reporters devote to careless, illogical and sometimes ungrammatical speeches. If it were not for the maligned reporter, nine speeches in ten that are not delivered from manuscript would read like a combination of bad grammar and delirium tremens, as Mark Twain put it. It is the saving grace of reportorial revision that has made many an oratorical reputation in this country. The public speaker who does not recognize his obligations to the men who report him is an ingrate. A just punishment for him would be to print his speeches exactly as he delivers them. After two or three experiences of that regimen he would have nothing to say of "inaccurate reporters."—Chicago Chronicle.

Beware of Ointments for Catarrh that Contains Mercury

As mercury will surely destroy the sense of smelling and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle.

Take Hall's Family Pills for constipation.

## OLD VIOLINS.

**Reasons Why Ancient Fiddles Are Better Than New.**

Fabulous prices are sometimes paid for old violins, and many an enthusiastic musician would part with his last dollar to possess one of the masterpieces of Stradivarius or Guarnerius or another of the famous makers of a century or two ago.

The questioned superiority of these old and often battered instruments has been variously ascribed to the peculiar quality of the varnish used in their construction, to the elasticity of the wood employed and to the ripening and improving effects of age and long use.

Of late years, however, much credence has been given the suggestion of an eminent authority that the real cause of the superiority of the old instruments is due to a peculiar warping of the wood to a higher arch, a buckling caused by the position of the "F" holes and sound post.

It might at first thought be supposed that the same effect could be produced by giving an equal arching to a new instrument, but the effect, if attained, is not permanent, because with age the arching increases until too great a degree of rigidity is the result.—Philadelphia Record.

# THE SUN'S LIBERAL OFFER

## A POCKET BANK FREE

To Each and Every Person Who Renews Their Subscription to The Semi-Weekly Sun for Another Year, or to The Daily for Three Months---Also to Any New Subscriber.

## THE POCKET SAVINGS BANK EPIDEMIC RAGES FIERCELY ....IN GAINESVILLE....!

Beneficent epidemics are scarce, but such a one has struck Gainesville, and people of every station and occupation have the fever.

It is most interesting and instructive to study the constantly changing line of applicants for Pocket Banks as it files through The Sun's business office. There is the mother, bringing her daughter with her and securing a bank for the girl, another for herself, and inquiring anxiously whether she may have another for the boy who is at work. She receives it promptly.

Boys come—some are steady, serious-faced chaps who have begun to think on their own account, and who ask questions about the operation of the scheme which show the results of rubbing up against the world.

Then the High School girls and boys, gay and active, while the workman and business man "slip in" during the noon hour to get a bank for the boy or girl at home, after asking one or two leading questions to make sure there is no joke about the 25 cents.

## .....THE PLAN IN OUTLINE.....

A HANDSOME NICKEL POCKET SAVINGS BANK and an order on

PHIFER BROS., BANKERS

Good for an additional 25 cents when a deposit of one dollar or more in cash is made, will be given to everyone who avail themselves of this opportunity. Make an investigation and you will never regret it.

## CLEVELAND PASSES CRISIS.

### Ex-President Has Been Seriously Ill at Princeton.

New York, June 21—Advices from Princeton, N.J., Thursday announced that ex-President Grover Cleveland on Wednesday night passed the danger point of another serious attack of sickness. He had been seriously ill for some days with internal troubles and several physicians have been in constant attendance.

The crisis has now been safely passed and Mr. Cleveland's recovery is looked for.

### Stevens as Arbitrator.

Atlanta, June 21.—Railroad Commissioner O. B. Stevens was designated by Comptroller General William A. Wright as arbitrator to represent the state in passing upon the tax returns of four of the state's largest street car companies, which declined to increase their returns to the comptroller general's figures and were assessed by him on the same basis as the property of the Georgia Electric Railway and Light company, of Atlanta. Not only will Railroad Commissioner Stevens represent the state in these cases, but it is the purpose of the comptroller general to have him act as the state's arbitrator in all cases where a contest arises under the returns of 1907.

### Premier Announces Plans.

Sidney, N. S. W., June 21.—On the eve of Socialistic legislation more paternal than even Australia has hitherto known, Premier Carruthers on Thursday anounced the plans for the next session of parliament. The program embraces pensions for invalids, subschiptions to friendly societics and the establishment of a system whereby the poorest persons may purchase annuities. There is little doubt that the proposals will be adopted.

### "Plugging" a Hotel Guest.

The hotel detective stepped out of the elevator and walked over to the counter.

"Well, I plugged him," he said.

"Plugged him? Who? What for? Where did you hit him?" quickly asked a friend who was standing by.

"Didn't hit him anywhere. Just plugged the keyhole of his door. Never hear of plugging before? When we have a guest whom we suspect is getting ready to leave without settling or whose credit is exhausted and fails to settle up, we just wait till he leaves his room and plug the keyhole in his door. Then he has to settle up or leave his baggage. The plug fits over the end of a key. It is placed in the lock and turned. The key is then withdrawn, leaving the plug in the door." —Kansas City Star.

### An Oversight.

When Chapple got up the other morning he wandered around his apartments in his pretty pink pajamas, the very picture of woe.

"What's the matter, sir?" inquired his valet.

"I don't know, Alphonse," he groaned. "I passed a most unhappy night."

Alphonse looked him over carefully.

"Oh, sir," he exclaimed, "I know what was the matter! The trouserines of your pajamas were not creased. You must be more careful, sir. Those I had prepared for you were hanging across the foot of the bed."—Bohemian Magazine.

### The Onion's Virtues.

Onions are really sweeteners of the breath after the local effects have pasaed away, says one learned doctor. They correct stomach disorders and carry off the accumulated poisons of the system. They provide a blood purifier that all may freely use. As a vermifuge the onion cannot be surpassed and eaten raw will often check a violent cold in the head. One small onion eaten every night before retiring is this well known doctor's prescription for numerous affections of the head and is highly recommended for sleeplessness. It acts on the nerves in a soothing way, without the injurious effects of the drugs often applied.

### Why He Hit Him.

"You shouldn't have hit that man who called you a liar."

"Shouldn't, hey?"

"No; you should have demanded the proof, and if he could not produce it he would have been branded as the falsifier."

"That's all right ethically, but I knew he had the proof." — Philadelphia Ledger.

### There Are Few

People who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. V. C. Simpkins, Alba, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as it is for grown-up people, and I recommend it. It is fine for [illegible]." Sold by W. M. Johnson.

### A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bilious or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

### He Hadn't Changed a Bit.

The Smiths had invited the minister to dinner. As the last course was reached little Willie, who had been closely watching the guest almost continually through the meal, looked over at him once more and said:

"You haven't changed a bit since you started eating, have you, Mr. Curtis?"

"Why, no," laughed the minister. "Why do you ask that question?"

"Because," blurted Willie, confused by the pairs of eyes focused on him, "because I heard pa tell ma you'd make a big hog of yourself as soon as you got your eye on the corned beef and cabbage."—Bohemian Magazine.

Mr. and Mrs. E. W. Millican and son, Edward, are in the city. Mrs. Millican and son went from their home near Waldo to White Springs several days ago, but Master Edward, who was unwell at the time he went to the springs, was taken with typhoid fever, and was brought here, where he is now confined in the Odd Fellows' Sanitarium.

James Chesnut, Jr., has resumed his duties as salesman at the store of John Chesnut, after an illness of several weeks with typhoid fever. Mr. Chesnut, as soon as he had sufficiently recovered to travel, went to Florence, S. C., where he spent some time with his sister, Mrs. H. S. Holmes, recuperating, and from which he was greatly benefited. He also spent several days in Charleston as the guest of friends.

T. H. Bethea of Alachua and W. M. Parkinson of Jennings Lake were in the city yesterday. They were en route to their respective homes from Arch Creek, near Miami, where Mr. Bethea and his father have been engaged in growing tomatoes. From a twenty-five-acre field they secured a prolific yield of fine fruit, which brought fine prices in the market. Mr. Bethea declares the East Coast the proper place for the raising of fine tomatoes.
